About This Game

The battle between humans and the devil was a very long time. The victory was for the humanity many years ago. The sectarians tried to summon Satan, but it was in vain. But 5d3b920ae0

Terrible localisation of what seems to be an unpolished game.. best game, really nice engine, killing bandits in a infinite loop is everything!! I would say more about the game but I couldn't really play the game because some of it wasn't translated, things like the journal or some dialogue, and the translation that is done is bad (probably because of a bad translator) and some words that are translated you can tell aren't the right words. So unless you can read Russian or until it gets a better translate I wouldn't recommend it.. ***WARNING*** This game is pretty terrible - you start off thinking that it's like a copycat version of a Final Fantasy game. which isn't so bad. Then, you push the button the first time (after the small dialogue of broken English) and the remaining dialogues are in Russian! WTF??? I probably only spent like a dollar on this game, but it makes me trust the Steam reviews a little bit less. I used the positive reviews to make my choice, so I'll be more careful in the future.. Really, and I mean really bad game. I give a ton of leeway to indie rpgmaker games, perhaps more than I should. BUT, to take a game that is so irredeemably bad, so poorly polished, and pathetically translated and release it as a full game; is reprehensible. You can literally pay for sex in the first town, and watch an NPC get sucked off by a little girl. That's right folks, game has pedophilia right in the first town. Big ol' nope from me. u2665u2665u2665u2665 this game and it's creator.. Gooooood game! +cards +huge world +interesting story +cool adventures 6/10. Bought the game, really tried to like it. But just too many people errors and no support.. This game is some really confusing stuff and that is why it got such negative reviews. That's the least I'll say to begin with. First of all, there are some of the languages and texts that are still in Russian. I'm a simple man, I can't read Russian. Moreover, the English translation is just really horrible in many places. Even the menus are translated horribly. With such a struggle to read the text and what to do, the game becomes a grind in many places it shouldn't be. The game also throws you in the middle of a world with a bunch of places to go, but I had no clue what I was supposed to do. Perhaps it was also because the translation was so bad that I was clueless of what was going on, but I was so highly confused by what to do, where to go, and what the hell I was playing in general. That aside, the combat for this game was a refreshing taste from the usual JRPG style RPGMaker games. It was simple, but it wasn't the mundane old same as always combat. Overall, this game is not worth it unless perhaps you know Russian very well and you play it defaultly in Russian. If you don't know Russian, I wouldn't recommend this game because it's just too confusing. Rating: 3.9/10 Recommend Price: Under \$0.14
